IT WAS THE BEARS' DAY

WALL STREET TRADING SHOWED A REACTIONARY TENDENCY.

Railroads and Specialties Developed Weakness as the Day Progressed-Strength of Local Trade.

United States new fours, reg..... At New York yesterday money on call was steady at 3@4 per cent.; last loan, 4 per

Prime mercantile paper, 41/465 per cent. Sterling exchange was strong, with actual business in bankers' bills at \$4.871/4@4.873/4 for demand, and \$4.83% for sixty days; posted rates, \$4.84@4.841/2 and \$4.88; commercial bills, \$4.8314@4.88.

Silver certificates were 604@614c; bar silver, 59%c; Mexican dollars, 47%c. At Lon-

don bar silver was 27%d an ounce. Movements of prices in yesterday's stock market largely represented a contest of speculative forces for supremacy. The forces of reaction finally prevailed and the market closed decidedly weak and at a level generally below Monday night's close. This result was achieved after many vicissitudes and extreme irregularity, but the mere fact of the presence of an aggressive bear clique in the market served as a deterrent to the buying demand from outsiders, which has constituted the underlying strength of the market. Commission houses report a large falling off in the volume of orders, which have made the market open for many days with a rush to buy, and which served to conveniently absorb the profit-taking sales of the profes-

sional element. This class of orders has weakness. A good local demand holds eggs firm. Receipts of poultry are light and prices either been withdrawn or has been placed are well held. Choice apples and oranges and at a level f prices below that now existing. The operators for the decline have mand full prices. New crop vegetables are arnot yet succeeded in bringing out any very riving more freely from the South. The receipts heavy volume of offerings, but they work of Irish potatoes are lighter, and it has resulted in giving a firmer tone to prices for choice stock. in the confidence that they will reach stop-The local grain market is more active on slightly increased receipts. All cereals, espe-cially corn, are in active request at the followloss orders, which will precipitate a sudden drop all around. Their efforts were coning prices, as furnished by the secretary of the tested yesterday by pool operations in a number of stocks, and the continued demand for stocks from London was against freight; No. 3 red, 68%@70%c; April, 72%c, track; wagon wheat, 72c. them. Operators for a rise seemed to lose Corn-No. 1 white, 41%c; No. 2 white, 41%c; No. 3 white, 41%c; No. 4 white, 38%@40%c; No. 2 white mixed, 41c; No. 3 white mixed, 41c; No. 4 courage toward the close of the day, and realizing in stocks which had shown white mixed, 38@40c; No. 2 yellow, 41c; No. 3 yellow, 41c; No. 4 yellow, 38@40c; No. 2 mixed, 41c; No. 3 mixed, 41c; No. 4 mixed, 38@40c; ear strength was very general. These included in the railroad list particularly the Baltimore & Ohio stocks, Missouri Pacific and other Southwestern railroads, Norfolk & Oats-No. 2 white, 291/c; No. 3 white, 281/c; No. 2 mixed, 271/c; No. 3 mixed, 261/c.
Hay-No. 1 timothy, \$12.50@13.50; No. 2 timothy, Western and some of the coalers. The industrials and specialties were extremely active and irregular under the influence of Inspections—Wheat: No. 2 red, 3 cars; No. 3 red, 1; total, 4 cars. Corn: No. 2 white, 7 cars; No. 3 white, 15; No. 4 white, 1; No. 2 yellow, 1; No. 3 yellow, 1; No. 2 mixed, 1; No. 4 mixed, 2; special causes. Sugar rallied sharply from an early decline on the announcement that

empany's principal competitor had advance the price of refined sugars to a parity. The stock sold off again with the general weakness of the market. Thirdavenue shot up nearly 10 points on the announcement that its bond issue had been placed. A long-standing short interest was forced to take losses and close out, after which the stock relapsed somewhat. Realizing by the Brooklyn Transit pool forced the stock down 41/2 points from the early high level. The metal stocks were under bear pressure, especially Steel and Wire. The bears circulated rumors that difficulties had been encountered in the projected listing of the stock on the London Stock Exchange. Continental Tobacco suffered from rumors of a poor showing of earnings to be made in the annual report, which is expected to-day. The Pacific stocks suftered especially from bear pressure and realizing, and the grangers were somewhat affected by the forecasts of the government crop report, which had a bullish effect in the wheat market. The signs of discouragement on the part of the manipulators

installment of the British loan, which stiffened yesterday's money market in London, may be followed by a relaxation in money rates there and a sympathetic response in sterling exchange here. The bond market was moderately active and price changes were irregular. Total sales at par value were \$2,700,000. United

for the advance accentuated the reaction-

ary tendency as the day progressed, and

some sharp net losses in railroad stocks

were the result. A further rise in sterling

exchange to within a fraction of the gold

export point led to a discussion of the pros-

peet of an outward movement of gold. The

continued ease of money here would favor

such a movement, but the taking up of the

States new fours declined 1/2, and the old fours advanced % and the fives 1/2 in the Following are the day's share sales and the closing bid prices:

ALL ON THE UP GRADE

FIRM, THOUGH DULL, GRAIN MAR-KETS AT CHICAGO.

July Hog Products Touched a Record Price-May Pork, Lard and Ribs Were Strong and Higher.

CHICAGO, April 10 .- Uncertainty over the government crop report, due this afternoon, and the prudence of a large short interest, fearing it would be bullish, produced a dull but firm wheat market to-day. May wheat closed 40%c, May corn 40%c and May oats 1/3c over yesterday. Provisions were strong and active, closing from 21/2@ 5c higher for May ribs to 25c improved for May pork.

Wheat began the session firm, May 180 over yesterday, at 67@67%c. Paris was higher and the Michigan condition was put at 64 per cent. Ordinarily such items would have received but little notice, but as there was no early news of another sort traders took what they could get and acted on it. The market touched 66%c, following the opening, but reacted later, helped by Bradstreet's decrease in the world's visible and the strength of corn, May ascending to 67%c. The close was firm, May 1/4@%c up, at 674c. The market was narrow and mostly local in character. Uncertainty over the government report had the effect of blocking any big moves either way. As the session progressed the belief grew that the report might put the condition under previous expectations and undoubtedly had some effect in boosting the price. Receipts here were seventy-seven cars, none of contract grade. Minneapolis and Duluth reported 388 cars, against 529 last week and 185 last year. Primary receipts were 558,000 bu, compared with 290,000 bu a year ago. Atlantic port clearances in wheat and flour

vance, which regained what the market lost yesterday. The news was rather bearish, but it was ignored generally. Local receipts were 566 cars. May sold from 391/4 @39%c to 40%c, closing 1/20%c over yesterday, at 39%@40c. Many of yesterday's sellers were buyers to-day. The low rates West expired to-day and a reduction in receipts is expected in consequence. Some sources reported country acceptances freer-others said they were still light. Provisions were active and strong, alhough hogs were easier. Liverpool was higher for bacon, lard and ham, which was a consideration, but the market owed its strength to the heavy cash demand against which packers were liberal buyers of futures. July products made a record for high prices, pork for delivery for that month touching \$13.15, lard \$7.10 and ribs \$7.10. May pork ranged from \$12.821/2 to \$13.05 and closed 25c over yesterday, at \$13.05; May lard from \$6.80@6.821/2 to \$7, closing 171/2020c up, at \$7, and May ribs from \$7.05 to \$7.15, with the close 21/2@5c better,

The oats market followed corn with quiet fidelity. May ranged from 24%@241/2c to 24%c and closed firm, %c up, at 24%c. Receipts were twenty-four cars. Estimated receipts to-morrow-Wheat, 40 cars; corn, 300 cars; oats, 135 cars; hogs,

26,000 head. Leading futures ranged as follows:

Available Stocks of Grain. NEW YORK, April 10,-Special cable and telegraphic communications to Bradstreet's show the following changes in available supplies as compared with the last accounts: Wheat in the United States and Canada east of the Rocky mountains, a decrease of 2,577,000 bushels; affoat for and in Europe, an increase of 2,100,000 bushels; to-2,100 tal supply, a decrease of 477,000 bushels. Corn, an increase of 1,304,000 bushels. Oats, a decrease of 67,000 bushels. Among the more important decreases reported to Bradstreet's not given in the official visible supply statement are those of 2,100,000 bushels at Northwestern interior elevators, 1,199,000 at Manitoba storage points, 188,000 at Port Huron, 161,000 at Milwaukee private elevators, 100,000 at Cleveland, 94,000 at Chicago private elevators, and 63,000 at Depot Harbor. The principal increases are those of 150,000 bushels at East St. Louis and 64,000 at Portland, Me. The aggregate stock of wheat held at Portland, Ore., and Tacoma and Seattle, Wash., increased 138,000 bushels last week.

EXPORT STEERS IN DEMAND AND SELLING AT HIGH PRICES.

Hogs Active at a Further Advance-Sheep and Lambs Strong-Condition of Markets Elsewhere.

UNION STOCKYARDS, INDIANAPOLIS. April 10.-Receipts, 250; shipments, 100. The receipts of cattle were small, but in the steer line a better class was represented than usual at this time in the week recently. However, there were none of the kind to command extreme prices. There was a better demand from order buyers than for several days and, with a good inquiry from local killers, the bidding was lively and a good clearance was soon made at the highest prices since the high time. Cattle weighing 1,012 and 1,383 lbs sold at \$4.60 and \$5.60 There was also a good inquiry for female butcher grades, and they were sold early at strong prices. The general market was quite satisfactory to shippers. The receipts of hogs were not large, and, with a good inquiry from local packers and fair demand from order buyers, the market opened with considerable animation in the bidding. Salesmen, of course, took advantage of the situation and succeeded in transferring their consignments at 21/2c to 50 higher prices than yesterday, and fully 100 higher prices than the average at the close of last week. The arrivals included a few hogs better than any here yesterday, but the quality generally was not improved. A good clearance was soon made and the market closed steady at opening prices, notwithstanding neighboring markets closed weaker. The top price for the day, \$5.65, is the highest obtained in this market since Oct. 12, 1894, when heavy hogs sold at \$5.90.

There was only a moderate supply of sheep and lambs, and most of the offerings were spring lambs. Old stock sold usually at firm prices, and there were not nearly enough to fill orders, but there were fully enough spring lambs to meet the requirements of the trade, and, as usual under such conditions, values were decidedly depressed. A few choice kinds sold at \$9.50, with lighter and heavier grades of less desirable quality at \$7.25@9. There were no old lambs good enough to bring over \$6, but there is no doubt that choice kinds would have sold as high as quoted. There were not enough sheep to establish a market.

Horses.

UNION STOCKYARDS, INDIANAPOLIS. April 10 .- There is no increase to report in the marketing of horses, the receipts for the sale being the same as a week ago and a year ago. About 250 head were offered, including some that were better and a few that were not as good as the offerings last week. The quality generally, however, was not perceptibly different. There was a good attendance of buyers from Eastern points, but not many exporters, and a very limited demand from the Southern trade. The arrivals were principally chunks and drivers, and with a continued demand for that class the trading started lively and continued so until all, had passed under the hammer. Prices in all instances were considered strong, but not quotably higher. A good many heavy horses sold all around \$150 per head, harness horses as high as \$200, and drivers and chunks at from \$65 to \$135. A good clearance was made in good season, and the closing was firm. Shippers generally seem to be satisfied with the

Government Report Shows a Good Ave erage-Indiana Wheat Showing.

WASHINGTON, April 10 .- The April report of the statistician of the Department of Agriculture will show the average condition of winter wheat on April 1 to have been 82.1, against 77.9 on April 1, 1899, 86.7 on April 1, 1898, and a ten-year average of 82.8. While the ravages of the Hessian fly in Ohio, Michigan and Indiana will prob ably result in not one of these three States producing more than half a crop, an exceptionally high condition is reported from the winter wheat States west of the Mississippi river and from the Pacific coast. Pennsylvania, 72; Ohio, 47; Michigan, 57;

Indiana, 51; Illinois, 88; Missouri, 91; Kansas, 99; Texas, 101; Oklahoma, 99; Washington, 106; Oregon, 100, and California, 90. The average condition of winter rye is 84.8, against 84.9 on April 1, 1899, 32.1 on April 1, 1898, and a ten-year average of 98.1. The percentage of mortality among farm animals during the year ended March 31, 1900, was not only below that of last year, but was also below the ten and fifteen-year averages. Of horses, 1.8 per cent. are reported as having died of disease, against 2.2 per cent, the preceding year and a ten-year average of 1.9 per cent. On cattle, a mortality of 1.1 from winter exposure and of 2 per cent. from disease is reported, against 2.2 from exposure and 2.3 per cent. from disease the preceding year, and 1.6 per cent. from exposure and 1.8 per cent, from disease as the ten-year average. Of sheep, the deaths from exposure amounted to 1.8 per cent., and those from disease to 2 per cent, against 3.5 per cent. from exposure and 2.1 per cent. from disease the preceding year, and 2.6 per cent. and 2.3 per cent. the respective ten-year averages. No estimate of the number of swine on Jan. 1 last having been made by the department, the rate of mortality for the country at large cannot be determined. Of the seventeen principal States, however, twelve report a mortality below that of last year. In Texas the rate is unchanged and only in North Carolina, Georgia, Alabama and Arkansas is it even slightly higher than in 1898-99. Only in five States, con-taining an aggregate of less than one million head of swine, is the mortality reported above the ten-year average.
